# Randvoorwaarden

Conditions préalables | Voraussetzungen | Preconditions

NL: **Veiligheid:** Werk altijd op een veilige manier. Bij glas altijd handschoenen en een veiligheidsbril gebruiken. Gebruik daarnaast werkschoenen ter bescherming van de voeten.

**Materiaal:** Gebruik alleen schroeven die worden meegeleverd, deze schroeven zijn geschikt voor zacht hout. Wanneer ander materiaal gebruikt wordt, dient zelf zorg voor geschikt bevestigingsmateriaal gedragen te worden.

**Check:** Controleer elk onderdeel voor montage op schade, was hiervoor het glas voor het plaatsen. Indien van toepassing, maak foto's van de schade en neem contact op met uw leverancier.

**Goot:** Plaats eventuele goot voor het aanbrengen van platen.

EN: **Safety:** Always work in a safe way. When working with glass, always use gloves and safety goggles. In addition, use work shoes to protect the feet.

**Material:** Only use screws that are supplied, these are suitable for soft wood. If other materials are used, you must provide your own suitable fastening material.

**Check:** Check each part for damage before assembly, wash the glass before fitting. If applicable, take photos of the damage and contact your supplier.

**Gutter:** Mount an optimal gutter before place the roofing sheets.

DU: **Sicherheit:** Arbeiten Sie immer in einer sicheren Weise. Verwenden Sie immer Handschuhe und Schutzbrillen für Glas. Verwenden

Sie außerdem Arbeitsschuhe, um die Füße zu schützen.

**Material:** Verwenden Sie für die Montage der Überbaus nur die gelieferten Schrauben. Diese Schrauben sind für weiches Holz geeignet. Wenn andere Materialien verwendet werden, müssen Sie selbst für geeignetes Befestigungsmaterial sorgen.

**Prüfung:** Prüfen Sie jedes Teil vor dem Zusammenbau auf Beschädigungen, waschen Sie das Glas vor dem Einbau. Falls zutreffend, fotografieren Sie den Schaden und kontaktieren Sie Ihren Lieferanten.

**Rinne:** Installieren Sie die Dachrinne vor dem Verlegen der Dachbahnen.

FR: **Sécurité:** Travaillez toujours de manière sûre. Avec du verre, utilisez toujours des gants et des lunettes de sécurité. De plus, utilisez des chaussures de travail pour protéger les pieds.

**Materiel:** N'utilisez que les vis fournies, ces vis sont adaptées au bois tendre. Si d'autres matériaux sont utilisés, vous devez fournir votre propre matériel de fixation approprié.

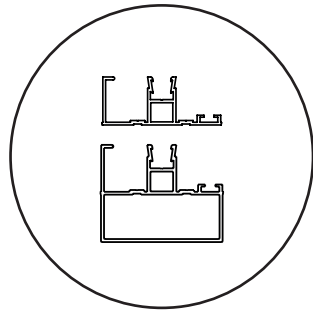

**Contrôle:** Vérifiez que chaque pièce n'est pas endommagée avant de l'assembler, et lavez le verre avant de le poser. Le cas échéant, prenez des photos des dommages et contactez votre fournisseur.

**Gouttière:** Installez une gouttière avant de poser les tôles de toiture.
